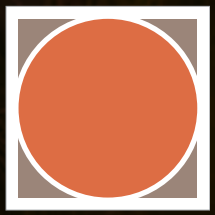
Distinctive

Our distinctive cedar barrel saunas offer both unique beauty and practical advantages to your sauna experience, and are an exciting, lasting investment that generations can enjoy.

The barrel design reduces the heating area by 30% and improves the circulation, without compromising on space for sauna bathers. The cedar walls, 1½" thick, provide natural insulation and structural strength.

Sauna diameters are 6 or 7 feet, and lengths are your choice of 6, 7 or 8 feet.

Better Air Circulation



30% Less Heating Area

Barrel Sauna Features

- Cedar has a very long life span in outdoor environments, and the natural aroma makes it a perfect choice for cedar barrel saunas.
- Sauna bands are high-quality, marine-grade aluminum, and all exposed hardware is stainless steel.
- Clear cedar benches and a solid cedar cradle are included in each sauna package.
- Saunas use your choice of our very own wood-burning heater, or Tylo electric heaters. Both include sauna rocks.
- Round ventilation system in back wall provides air exchange.
- Using state-of-the-art computerized milling equipment, our saunas are produced in easy-to-assemble kits, and shipped worldwide.

Outdoor Cedar Hot Tubs

Wood-burning Western Red Cedar Hot Tubs

Get all the great features of wood-burning hot tubs . . .

Cedar Hot Tub with Cover (shown at left)

Outdoor Red Cedar Hot Tubs

Enjoy a hot, therapeautic bath in a deep-soaking cedar hot tub from LeisureCraft, all while you listen to the soft crackle of a fire in the wood stove. Let hot, wood-heated water massage your aches and pains, accompanied by the sweet smell of warm, wet cedar.

Peace & Quiet

Enjoy classic, Japanese-style bathing in a quiet cedar hot tub. With no pumps or jets to make noise, you can listen to nature around you and the crackle of the fire.

Hand-crafted Quality

These traditional, cooperage-style cedar hot tubs are hand-crafted from clear western red cedar, giving you quality and craftsmanship that stands the test of time. Using no electricity, this uniquely designed wood-burning hot tub heater takes about 3½ to 4 hours to heat up your tub of water from 45°F to 105°F. Filtration and chemicals are not required. The tub can be assembled in 4 to 6 hours with minimal building skills.
